BUILDING PERMIT FEES

The rates in effect at the time of permit issuance apply unless otherwise noted. Building permits are issued as a general permit. Electrical, mechanical and plumbing sub-contractor permits and fees are required when associated with a general permit unless stated otherwise.

BUILDING PERMIT FEE Section 4-20-4(c)(d)(e)

This fee is based on the value of the work covered by the permit. It shall be determined by either the City of Boulder Valuation Table (see pages 2-3) or the estimated value of the work covered by the permit provided by the applicant at time of application. *The higher of the two valuations shall be used to calculate the building permit fees and the estimated pre-payment of construction use tax.* The square foot construction costs in the City of Boulder Valuation Table are based on the August 2012 cost data as published by the International Code Council, and will be updated on an annual basis. Construction materials are defined as materials that become an inseparable and integral part of a completed structure or project.

Fee is due at the time of permit issuance, and is doubled on permits for work started or completed without an approved permit.

SALES AND USE TAXES

Section 3-2-5, Section 3-2-9(c), and Section 3-2-14

City and county sales and use taxes are paid on building and right-of-way permits at the time of permit issuance and are a pre-payment estimate based on the construction material valuation of the work covered by the permit. For a building permit, material valuation is estimated at fifty percent of the total valuation. For a right-of-way or grading permit, material valuation is estimated at thirty percent of the total valuation. The tax rate in effect at the time of permit issuance applies. An applicant is exempt from city and county taxes on the construction materials associated with the permit at vendors throughout Colorado upon purchasing the permit. Contractors and homeowners acting as their own contractor may be required to reconcile the pre-payment of estimated Construction Use Taxes with actual taxes due based on the final contract price or final project cost. Please refer to the city's website for additional information: www.bouldercolorado.gov/constructionusetax.

City of Boulder Sales and Use Tax	3.56%
County of Boulder Sale and Use Tax	0.80%

Sales tax is collected on publications and water/wastewater taps and meters.

Total Sales Tax	8.36%

EXCISE TAXES

Section 3-8-3, and Section 3-9-2

Development Excise Taxes fund the cost of future capital improvements. The Housing Excise Tax was established to promote the development and provision of housing in the city that is affordable to low-income people.

Development and Housing Excise Taxes are assessed on new residential and nonresidential development and nonresidential additions. Excise taxes are paid prior to final inspection for new construction, or at the time of permit issuance for all other types of construction. The tax rate in effect at the time of application applies.

CAPITAL FACILITY IMPACT FEES

Section 4-20-62

Capital facility impact fees will be collected for capital improvements to serve new development. Residential development will be charged impact fees based on unit size. Residential additions will be charged on net additional square footage. Non-residential development will be charged impact fees based on square footage by type of use. Redevelopment will be charged for net new square footage and a change of use. Capital facility impact fees are paid prior to final inspection for new construction, or at the time of permit issuance for all other types of construction. The tax rate in effect at the time of application applies.

PLANT INVESTMENT FEES

Sections 4-20-26, 4-20-29 and 4-20-46

General Information

Plant Investment Fees (PIFs) are for water, wastewater, and stormwater utilities and are charged to utilize existing infrastructure systems. PIFs are paid prior to final inspection for new construction, or at the time of permit issuance for all other types of construction. The fee rate in effect at the time of application applies.

Credits

Existing residential units or metered commercial facilities approved as part of a previous permit are credited at current plant investment fee rates.

Efficiency Standard

All nonresidential or mixed use customers can opt to choose the efficiency standard to establish a custom water budget. The PIF will be determined at that time. See number 6 on page 5 of http://bouldercolorado.gov/files/Utilities/Water%20Budgets/final_rule-466.pdf for details.

Large User Agreements

Nonresidential users requiring a water meter larger than two inches, or water use that exceeds the limits described in Section 11-1-52(j), or wastewater discharge that exceeds limits described in Section 11-2-33(j) will require a special agreement with the city and will be subject to large user fees specified in Section 4-20-26 (a) (5) and/or 4-20-29 (a) (4).

Mixed Use Developments
Developments with combined residential and nonresidential uses in the same structure shall pay a plant investment fee based on the individual uses within the structure.

Water PIFs are charged when an increase in demand is placed on the city's existing water system. The PIFs are based on both an indoor and an outdoor component (except for irrigation-only services, which only have an outdoor component). See Table I for details by customer type. Existing customers who are increasing their–demand on the system due to a remodel or an addition may or may not require a PIF payment. Please see the "Plant Investment Fee Worksheet" for details.

TABLE I: Water PIF Payment
Based on Customer Type

Customer Type	Outdoor Component	Indoor Component			
New Single-family Residential	$2.67 per square foot (s.f.) of irrigation area for first 5,000 s.f.; $2.14 per s.f. for next 9,000 s.f.; $1.79 over 14,000 s.f. *(2,000 s.f. min.)*	$11,467.00			
New Multi-family Residential	See Separate Irrigation-Only Service	**1 or 2 bed-room unit**	**3 bedroom unit**	**4 bedroom unit**	**5 or more bedroom unit**
		$6,554.00 per unit	$8,192.00 per unit	$9,830.00 per unit	$11,467.00 per unit
Commercial, Industrial, Institutional	See Separate Irrigation-Only Service	See chart below to select meter size and annual water use (average winter consumption – AWC)			
Irrigation-Only Service	$2.67 per square foot of irrigation area *(2,000 s.f. min.)*	N/A			

Commercial, industrial and institutional customers must determine the appropriate meter size and select an annual water budget as shown in Table II. Each meter size and water budget (percent of AWC) correlates to a specific PIF payment as shown in Table III. A customer may select a smaller water budget and pay less in PIFs; however, if a customer goes over their monthly water budget, they will pay more in their monthly utility bills. Water usage other than listed below may be evaluated and assessed a proportional PIF on a case by case basis.

TABLE II: Annual Water Budget
Based on Average Winter Consumption (AWC) (gallons)

Meter Size	25% AWC	50% AWC	85% AWC
¾"	N/A	30,000	165,000

Stormwater and Flood Management Utility PIFs Section 4-20-46

This fee applies to any customer increasing their impervious, (hardscape), area and is calculated based on the square feet of additional impervious area. However, if new storm water detention facilities are built by the owner according to the most current City of Boulder Design and Construction Standards in effect at the time the building permit application is submitted, on or after April 2, 2009, the applicable fee shall be reduced by 50 percent.

Customer Type	New Fee
All customers adding impervious (hardscape) area	$2.06 per square foot of impervious area
