2014
Orientation to Family Child Care

Interested in becoming a licensed family child care provider?

Is family child care the right profession for you? What are the costs and benefits of becoming licensed? This optional orientation will provide you with an overview of the licensing process and information about the training required to become a licensed provider in the state of Colorado. Participants will receive a **Family Child Care Home Application Packet ($22 value)** containing a Department of Human Services application, finger print cards, health evaluation form and the rules that regulate the licensing of family child care homes.

Pre-licensing training begins two weeks after the orientation workshops are held. To get ready for licensing in time for summer enrollment, take the January workshop; for fall enrollment, take the May workshop; and for the new year, you should take the September workshop.

Spanish interpretation available upon request.
