

19th Street Multimodal Improvements

Construct Norwood to Sumac; Plan Sumac to Yarmouth

Existing Conditions

 = Construction
 = Plan for Future

19th Street looking north featuring existing conditions including:

- Designated bicycle route; no marked bicycle lanes
- Median with travel lane and parking on each side

- On street bicycle lanes
- Curb and gutter on both east and west sides of roadway
- Detached sidewalks on east and west sides

- Existing curb ramps (do not meet current ADA standards)

- Curb and gutter on west side in front of Crest View Elementary
- Sidewalk on east side attached to roadway asphalt with no curb (does not meet city standards)
- Detached sidewalk on west side

- Paved bikable shoulder on west side used for parking
- Driveway access for Waldorf school with added asphalt "mountable curb"

- Paved shoulder used for parking and transit stop
- No curb and gutter

- Paved bikable shoulders
- Two 11 ft travel lanes
- No sidewalk on west side
- Curb and sidewalk on east side (does not meet city standards)

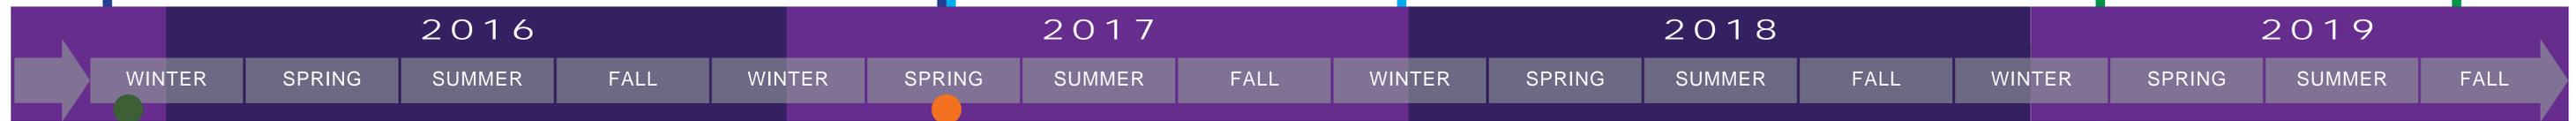

Project Timeline

What we've been doing

- Applied for and received additional funding from CDOT's Transportation Alternatives Program (TAP) and Safe Routes to School (SRTS) grants
- Worked to better understand the irrigation ditch laterals and storm water drainage conditions within and around the project area and with the Greenways Program
- Worked to understand mobility and access at Crest View Elementary school

Project Planning & Public Outreach *including 2nd Project Open House*

Construction *(Norwood to Sumac)*

Nov 2015

North Boulder Open House & BVCP Listening Session

We are here

Project Design
100% Design (Norwood to Sumac)
Conceptual Design (Sumac to Yarmouth)

What we heard

Need for:

- Improved sidewalks and pedestrian crossings for safe (and attractive) routes to school
- Drainage improvements
- Traffic calming and vehicle speed reduction elements
- Improve pedestrian and bicycle connections on east-west streets that intersect with 19th Street, specifically Sumac Ave. and Quince Ave. and at Crest View Elementary
- Additional lighting

Proposed Improvements

The project is beginning planning and design to construct multimodal improvements on 19th Street from Norwood to Sumac Avenues and to plan for future multimodal improvements on 19th Street from Sumac to Yarmouth Avenues.

Examples of proposed improvements from North Boulder include:

Sidewalks on Yarmouth Avenue

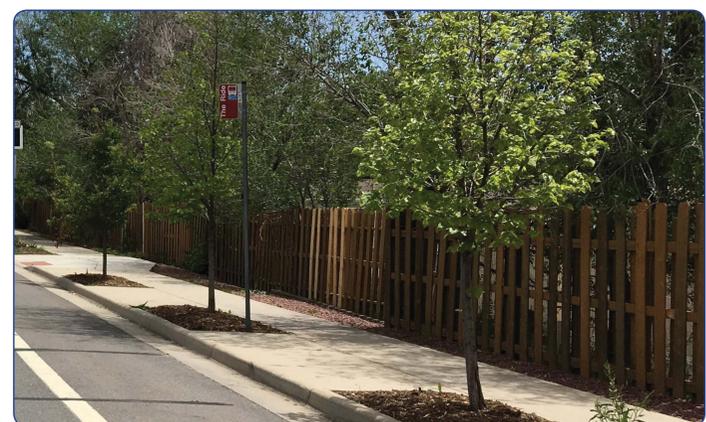

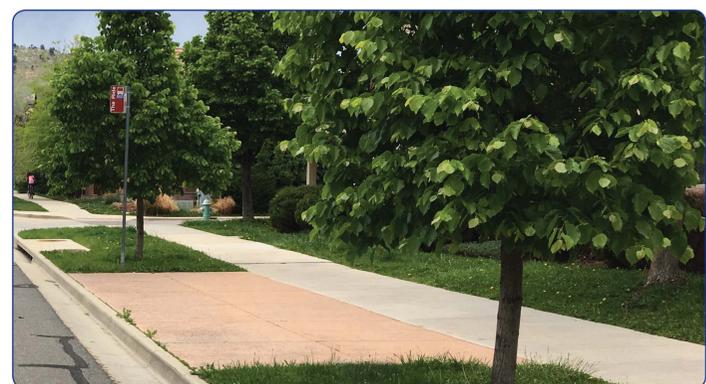

Americans with Disabilities Act (ADA) compliant access ramps on Yarmouth Avenue

Driveway with sidewalk on Broadway

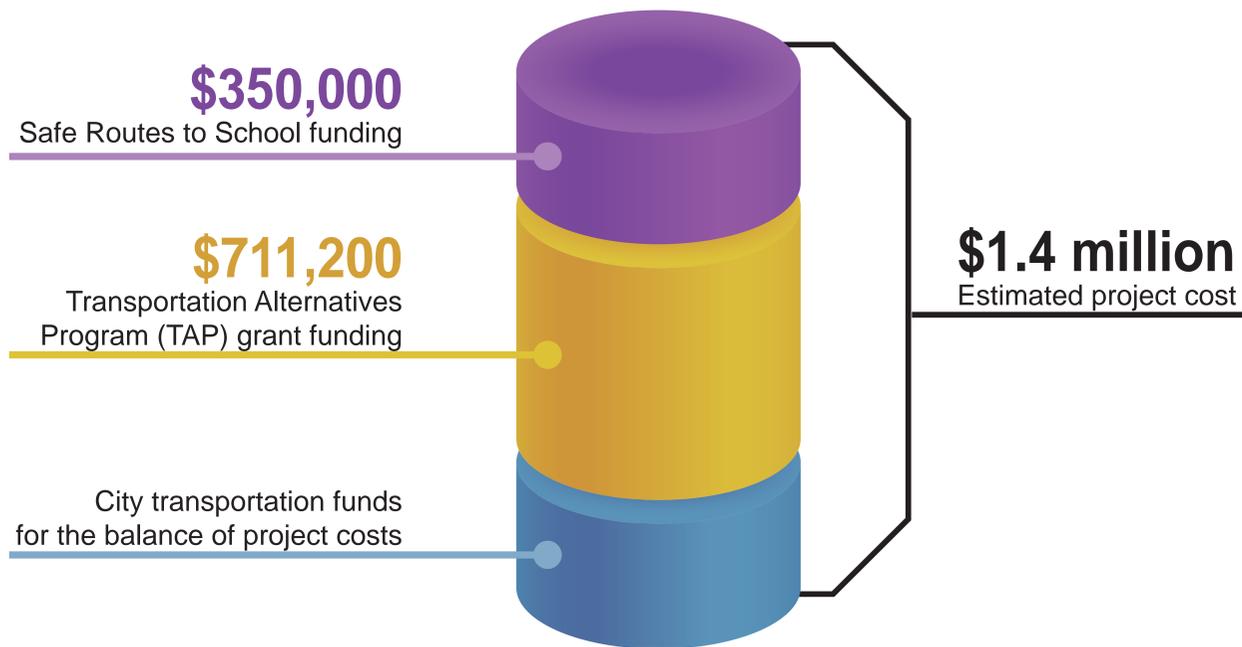

Bicycle lane along Kalmia Avenue with no on-street parking

Transit stops on Yarmouth Avenue
