

Update on Boulder's Energy Future

Planning Workshop: Monday, Nov. 3, 2014

Work to Date

- Completed modeling and analysis
- Community engagement
- Developed strawman of Utility of the Future
- Legal proceedings
- Transition work plan

The Utility of the Future

**The energy utility market is changing.
This shift is inevitable.**

Current Business Model

New Business Model

The Utility of the Future

Decarbonization, Decentralization and Democratization

- Stable, Safe and Reliable Electricity
- Customer Centric – Service vs. Commodity
- Promoting local economic vitality
- Flexibility and agility in responding to changing market conditions and technology
- Increasingly sustainable, resilient and carbon free
- Stable and predictable rates

Utility of the Future

Community Power Partnership
