

# 2020 ANS Program Watercraft Protocol

Boat Type	Risk classification	Incoming with Boulder tag and Specialty Lock	Incoming ANS protocol with Colorado tag	Incoming without tag or tag from out of state or confirmed out of state use
<b>Small craft and Equipment</b>				
solid SUP	1	Inspection	Inspection	Inspection
inflatable SUP (stand Up Paddleboard)	2	Inspection	Inspection	Inflated inspection
Multi chamber inflatable (belly boats, tubes, inflatable boats w/o motor)	2	Inspection	Inspection	inflated inspection
Canoe/scull	2	Inspection	Inspection	Inspection and Decon
kite board, sailboards, windsurfer	2	Inspection	Inspection	inspection
open water swim Equipment- Buoys, anchors, rope,	2	Inspection	Inspection	Inspection and Decon
Kayak	3	Inspection	Inspection and Decon	Inspection and Decon
Boat trailer w/o boat	3	Inspection	Inspection	Inspection and Decon
<b>Trailer/Motorized watercraft</b>				
Electric Hydrofoil	3	Inspection	Inspection	Inspection and Decon
open Hull boat- no containers, no compartments outboard engine	3	Inspection	Inspection	Inspection and Decon and inspection
sailboats with no cabin no motor	3	Inspection	Inspection	Inspection, Decon & inspection
boat with inboard or I/O motor	4	Inspection	Inspection and decon	Inspection + Decon + Quarantine 30 days + Decon +inspection
Jet craft	4	Inspection	Inspection and decon	Inspection + Decon + Quarantine for 30 days + Decon +inspection
sailboats with cabin and or motor	4	Inspection	Inspection and decon	Inspection + Decon + Quarantine for 30 days + Decon +inspection
All Pontoon boats, house boats, cabin cruisers	5	Inspection	Inspection and Decon + Quarantine for 30 days + inspection	Inspection + Decon + Quarantine for 30 days + Decon +inspection
boats with ballasts	5	Inspection	Inspection and Decon + Quarantine for 30 days + inspection	Inspection + Decon + Quarantine for 30 days + Decon +inspection

Risk scale 1-5. 5 being most risk based on structure of craft and ability to transport ANS

**2020 List of WID Locations with Known ANS**

<b>WID Location (alphabetical order)</b>	<b>ANS Present</b>
Arvada Reservoir	Eurasian Watermilfoil
Catamount Reservoir	Rusty Crayfish
Chatfield Reservoir	Eurasian Watermilfoil, New Zealand Mudsnails
Cherry Creek Reservoir	Hybrid Eurasian Watermilfoil
<b>Green Mountain Reservoir</b>	<b>Quagga Mussel (Suspect)</b>
Elevenmile Reservoir	Eurasian Watermilfoil, New Zealand Mudsnails
Lathrop State Park (Horseshoe and Martin Reservoirs)	Eurasian Watermilfoil
Navajo Reservoir	Eurasian Watermilfoil
Pueblo Reservoir	Eurasian Watermilfoil
Sanchez Reservoir	Rusty Crayfish
Spinney Mountain Reservoir	Eurasian Watermilfoil, New Zealand Mudsnails, Brazilian elodea
St. Vrain	Eurasian Watermilfoil
Stagecoach Reservoir	Rusty Crayfish
Standley Lake	Eurasian Watermilfoil
Yampa Reservoir	Rusty Crayfish

**We do NOT accept decontaminations or tags from any other state.**

**\*\* Any inspection may lead to a decontamination\*\***

**\*\*When dealing with a suspect watercraft, decontamination will be done then the watercraft will be required to remain off water pending sampling results.**

**Live Bait Regulations:**

1. Live aquatic bait is prohibited west of the Continental Divide, except at Navajo Reservoir, and east of the Continental Divide above 7,000 feet.
2. In areas where live bait is allowed, boaters must show a receipt that the bait was purchased within seven days of use from a Colorado commercial bait dealer and the receipt must itemize the type of the bait purchased.
3. The Boulder Reservoir reserves the right to deny the use of any bait for environmental safety reasons.

**Live Bait Recommendations:**

1. Anglers should not collect and transfer live bait from a reservoir where mussel larvae have been found.
2. Anglers using live bait should always minimize the transfer of water with bait between reservoirs. Netting bait and transferring to a clean container with distilled water will minimize risks of ANS transfer.

**\*\*Anglers should rinse and thoroughly dry all equipment between each use\*\***

**Definition of Terms:**

**Clean** - Absent visible ANS, attached vegetation, dirt, debris or surface deposits including mussel shells or residue on the watercraft, trailer, outdrive or equipment that could mask the presence of attached mussels.

**Drained** -All water drained from any live-well, bait-well, storage compartment, bilge area, engine compartment, floor, ballast tank, water storage and delivery system, cooler or other water area of the watercraft, trailer, engine or equipment.

**Dry** - No visible sign of any standing water on or in the watercraft, trailer, engine or equipment.

**Suspect watercraft** - any watercraft that is identified by an inspector as having any material suspected to be aquatic nuisance species.
