Subject: MAP request for MJ information routing group

Hello, yesterday at the Marijuana Advisory Panel meeting, a request was made to collect email addresses for those persons who would like to receive informational updates from the City of Boulder on Marijuana licensing, enforcement, and policies.

If you are receiving this email, it is because city licensing's database records indicate that your email address is one of the two emails that we can capture in our database.

If there are other people in your companies or otherwise who should also receive city email updates, please provide those email addresses to us by Fri. August 5.

We will also create a separate link on our division webpage at: www.bouldercolorado.gov/licensing , then see heading Regulatory Licenses for the "**Marijuana City Updates**" page where we will add notice emails and other content for your information.

Thank you, Mishawn Cook
