

Aging Well in BOULDER

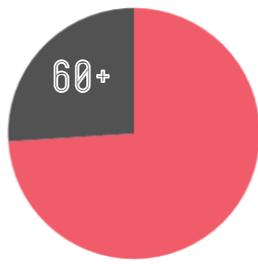

As with the rest of the nation, Boulder's older adult population is increasing. City of Boulder Human Services is preparing a number of engagement opportunities and avenues for the community to weigh in on changing needs of this population.

INCREASING ADULT POPULATION

2014

2030

Boulder's 60+ population made up 15% of the total population in 2014. They will increase to 26% of Boulder's total population by 2030. Are we ready to assist our older adults?
