Bluebell, Kings Gulch & Skunk Creek
Approximate September 2013 Flood Extents

MAP NOTE: *The approximate 2013 flood extent data was developed using field surveys completed by City of Boulder staff and consultants, Digital Globe Worldview-2 satellite imagery (9/13/2013) and public input from Boulder Crowd Sourcing online map as well as discussions with affected property owners. Map revised on 9/24/13.*

The approximate 2013 flood extent data does not supersede the Special Flood Hazard Area Designation (SFHA), or 100 year floodplain, used by FEMA for Digital Flood Insurance Rate Maps. The City of Boulder will use the approximate 2013 flood extent data for guidance in future flood studies to identify areas where the SFHA might be incorrect.
