

# boulder interagency network resource directory

The **boulder interagency network**  
is a long-standing tradition of Boulder County senior care professionals of all disciplines  
coming together to share and connect.

Organizations that are active, attending members of Interagency are included in our resource  
directory, which is published annually.

For questions about Interagency, email Sara Griswell at [sarag@homewatchboulder.com](mailto:sarag@homewatchboulder.com).

*Please note that all work done for the management of the Boulder Interagency Network is done on a volunteer basis, and not affiliated with any organization or business entity. The Boulder Interagency Network is not responsible for vetting the qualifications or services of any member and makes no claims thereof.*
