

Highlight Reel: CAMP Pilot 2017

The Chautauqua Access Management Plan (CAMP) explores ways to manage existing demand for access to and from the Chautauqua area that minimize impacts to surrounding neighbors, visitors, and the area's natural and cultural resources. The CAMP pilot program was implemented in the summer of 2017. The pilot program managed parking in the Chautauqua historic core and surrounding neighborhoods and provided free shuttle service to and from Chautauqua from downtown and nearby parking lots. Based on the data collected during the pilot and results from the community questionnaire, the 2017 summer pilot program was a success.

The Park-to-Park shuttle had **22,000 boardings** during the pilot.

That is almost **900 boardings each day** of the pilot program.

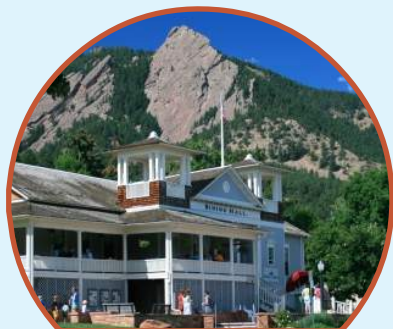

Each weekend **"parking ambassadors"** assisted visitors with parking and addressed shuttle questions.

There were over **19,000 paid parking transactions**.

On average, there was a **20% decrease in cars parked** on streets in the neighborhood and in the leasehold.

10% of Chautauqua employees used the shuttle to get to/leave work.

What the community said:

335 people completed the questionnaire, this is what they told us.

80% of respondents visited to use open space.

50% of respondents used the shuttle and 46% drove/parked.
** walk, bike, rideshare*

57% of respondents had a good or very good experience with the CAMP pilot.
