Hogan-Pancost Property, Boulder Colorado Environmental and Engineering Assessment and Feasibility Study Executive Summary – Book 1 of 4

Table of Contents

Executive Summary: Environmental and Engineering Assessment and Feasibility Study

Executive Summary Supporting Exhibits:

Vicinity Diagrams

- Vicinity Map Overall (City of Boulder)
- Contextual Site Diagram Existing Conditions
- Neighborhood Diagram Existing Conditions
- Contextual Site Diagram and Conceptual Land Use Diagram
- Neighborhood Diagram and Conceptual Land Use Diagram

Conceptual Storm Water Management and Floodplain Mitigation

(Drexel, Barrell & Co.)

- Local Storm Drainage Existing Conditions (200 scale)
- Local Storm Drainage Existing Conditions (100 scale)
- Local Storm Drainage Conceptual Conditions (100 scale)
- South Boulder Creek Floodplain Existing Conditions (200 scale)
- South Boulder Creek Floodplain Existing Conditions (100 scale)
- South Boulder Creek 100 year Floodplain Conceptual Condition (100 scale)
- Elevation Study/Site Study

Ground Water Hydrology Monitoring and Wetland Delineation

(Western Ecological Resource, Inc.)

- Wetland Map Existing Condition
- Wetland Map Conceptual Condition

Ground Water Evaluation

(Telesto Solutions, Inc.)

- Groundwater Summer Information Existing Conditions
- Groundwater Summer Information Conceptual Conditions

Preliminary Subsurface Investigation

(Western Soils, Inc.)

- Subsurface Soils Information Existing Conditions

Vegetation and Wildlife Existing Conditions

(Western Ecological Resource, Inc.)

- Vegetation and Wildlife Habitat Existing Conditions

Wetland Mitigation /Enhancement and Prairie Riparian Creation

(Western Ecological Resource, Inc.)

- Vegetation and Wildlife Habitat Conceptual Conditions
- Vegetation and Wildlife Habitat East Parcel Detail Conceptual Conditions
- Vegetation and Wildlife Habitat Diversity (photographs)

Transportation Impact Feasibility Study

(Drexel, Barrell & Co.)

- Traffic Information Existing and Conceptual Conditions
