

PROJECT PROCESS AND APPROACH

PROJECT OBJECTIVES

- Incorporate a long-term solution for the future use and ownership of the Harbeck-Bergheim House that maintains the historical and vibrant integrity of the landmarked property.
- Develop the long-term strategy in consultation with key stakeholders and the Boulder community.
- Determine the long-term sustainability of the most appropriate solution with support from the Parks and Recreation Advisory Board, City Council and additional internal stakeholders.
- Guide identification for the most successful long-term solution through continual alignment with the mission, goals and objectives of the Boulder Parks and Recreation Master Plan.
- Inform the community, internal and external stakeholders, as appropriate, to build awareness around how feedback may be incorporated throughout the engagement process, measuring success and outcomes.
