Boulder Colorado

“Out beyond ideas of wrong doing and right doing there is a field. I’ll meet you there. When soul lies down in that grass, the world is too full to talk about.”

— Rumi

Police Oversight Task Force (Task Force) Purpose as Defined in the Charter:

- A. The task force will study different models of police department oversight boards which are comprised exclusively or largely of community members in order to determine which models or aspects of such boards are most appropriate for the city of Boulder. The task force will recommend one or more options to the Boulder City Council. The options should include the recommended number and qualifications of members of the oversight board, the manner of appointment of the oversight board members, the responsibilities of the oversight board, a description of the investigative powers and decision-making authority of the oversight board, how it will be staffed and the projected costs of staffing the oversight board.
- B. The task force will establish a method for identifying recommendations that achieved majority or supermajority support, with the understanding that the task force final report will provide council with a discussion of the recommended option(s), as well as other options considered and an explanation of any areas of concern raised by task force members with regard to the recommended option(s).
- C. All meetings are open to the public. The city allows for anonymous communication with the task force and will not publicly post identifying information about task force members, other than their names. Community and task force members should understand, however, that the city cannot withhold release of application materials or anonymous communications with the task force if this information is requested under the Colorado Open Records Act.
