Police Oversight Task Force Meeting Notes

9/12/2019

(Absent: Nami, Christian Gardner-Wood, Selasee Atiase)

Check in: Attendees responded to reflection question “Based on the study session with City Council, I believe we need to . . . “

Appreciative Feedback Observations indicated overall the team felt very supported by council and felt like there were really good questions that could be addressed in the next council study session and recommendations. There was balance in the presentation and the team acknowledged ways to make the next presentation even better.

Admin Update – Aimee Kane covered the following topics below

- Introduction of Mark Bliley – BPOA President
- Additional feedback on the presentation
- Announcement of the Data Scientist in support of public safety
- Special small working group session being hosted on 9/16 @ 1777 Broadway

Recommendation Development

- The task force members continued their work in two groups based on the model of oversight they are potentially supportive of recommending
 - Auditor/monitor model with oversight board component
 - Investigative model with review board component (Private Investigation Hybrid)

Discussion of Recommended Structure –

- Each group presented each model answer the questions identified in each model and identified strengths and weaknesses
- The teams asked each other questions about each of the models and shared areas of agreement and discussed areas of dissent

Determination of next Steps- the team agreed to continue thinking on the two selected models with the intention of putting forward recommendations with options for council to choose as well as pros and cons for each recommendation.

Next Meeting: Monday, September 16th – 5-7 at 1777 Broadway – small team

Michele D., Shawn Rae, Todd, Michele S?, James, CJ, John, Luis confirmed participation

Homework

- Discuss the ongoing work of the task force with your individual networks and encourage their attendance on October 10
- Take time to think about both model proposals . . . what needs to be tweaked in order for each model to work for you. Identify pros and identify the cons and bring them back on Monday
- Re-Read charter
