Please answer the 7 questions below to help us better understand your proposed collection.

1. Please describe what you would like to collect?

2. Please provide the timeframe and schedule for your proposed collection?

3. Please describe the methods you propose to use to collect specimens?

4. Where would you like to collect (Be specific, provide map if necessary)?

5. How many specimens would you like to collect?

6. Please justify your proposed collection (i.e., what are there benefits to this collection).

7. Please provide a statement on the potential impacts of your collection. If it is a species, what are the impacts to the local population?
