

# CREEK VALLEY SITE PLAN

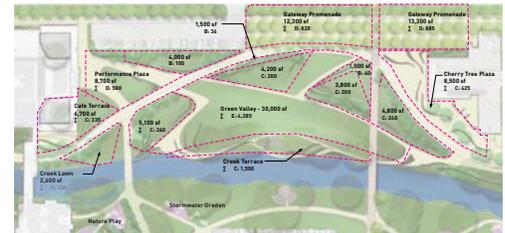

## CREEK VALLEY PROGRAM

### KEY CHARACTERISTICS

- » Biggest continuous green space
- » Dynamic topography creates a diversity of spaces and experiences
- » Regrading allows most visual & physical access to the creek
- » Largest entrance promenade announces park along Canyon
- » Picnic Plaza along North Farmer's Ditch
- » Enhanced circulation through Oak Market to 14th Street
- » Smaller plaza spaces
- » Biggest detour of the Creek Path (+5.28 seconds longer than existing)
- » No location on site for relocated Bandshell
- » Removes 46 parking spaces north of Boulder Creek and 19 parking spaces south of Boulder Creek to enhance the 11th Street access into the park.

| ⑦ 11th Street Spine Bridge | ⑭ Restroom Building Opportunity |                |

### FEEDBACK

#### PARK DEVELOPMENT GOALS

- 1) Does this plan meet the goals described for the park development? (Why / Why Not?)

#### CIRCULATION / ACCESS

- 1) Does this plan provide:
  - a. Best physical and visual access to Boulder Creek?
  - b. Best bike and pedestrian connectivity and access?
  - c. Appropriate accommodation of parking while enhancing park use?

#### PROGRAMMING / ACTIVATION

- 1) Does this plan provide:
  - a. The most functional approach to the Bandshell?
  - b. Greatest variety of experiences daily and throughout the year?
  - c. Most active and well used park spaces?
  - d. Most functionality for large events and gatherings?
