

AQUATIC FEASIBILITY PLAN - COMMUNITY ENGAGEMENT

Key Findings

- A desire for a 50 meter competitive aquatics venue that includes adequate deck space and amenities to support swim meets
- A desire for additional lap swimming availability
- A desire for an outdoor family aquatic center
- A desire for a warm water facility that would meet therapeutic needs as well as facilitate aquatics lessons and experiences for the young and those with physical and mental disabilities
- A desire for environmentally friendly pools and also pool infrastructure that allow reduced chlorine usage and improved air quality
- Amenities to serve older youth (ages 8+)
- General support for current facilities and operations while recognizing opportunities for improvement

Methodology

- Existing Surveys (*SVCP, Master Plan, RPPF*)
- Online Survey (*November - January*)
- Pop Up Chats (*December*)
- Stakeholder Focus Groups (*November*)
- Space Utilization and Operations workshops with staff (*Best Practices*)
- Follow-up with Stakeholders (*January*)
- Public Open House (*January*)
