

NPP: A SOLUTION FOR BOULDER'S NEIGHBORHOODS

SHARING THE STREETS:

In 1996, the City of Boulder adopted a new Transportation Master Plan (TMP) with the support of its citizens. One item addressed was the need to manage parking, and balance transportation demands, while preserving the quality of life in Boulder.

In this effort the City developed a number of options, among them the use of a residential permit parking system. Residential parking permit programs have been used successfully in cities nationwide and are most often implemented in neighborhoods adjacent to major employment and activity centers.

PRESERVING THE CHARACTER OF OUR NEIGHBORHOODS:

The Neighborhood Permit Parking Program (NPP) is designed to make Boulder neighborhoods safe and pleasant places to live, work and attend school by encouraging less driving and reducing on-street parking congestion. Each neighborhood in the program has public parking limits that are unique to that area and take into account the neighborhood's particular needs.
