*If vertical integration is eliminated at the state level, the excise tax would be charged on plants as well as buds and trim. Currently, the sales tax rate is charged on plants transferred to another grow because it has to be a retail sale.

** Retail sales not allowed from Boulder cultivation facilities, MIPs or Testing locations. All MIPs and Testing facilities are treated as recreational for tax purposes.

~ For RMB retail locations, 3.86% city sales tax is applicable to paraphernalia and other merchandize sales that are itemized separately from anything including any amount of marijuana, but 7.36% applies to all sales of any items with marijuana.

7.36% rate includes both standard 3.86% sales and use tax and additional RMB 3.5% sales and use tax.

Sales tax is paid on the retail sales amount charged to the customer.

Use tax is paid on the cost of assets and expenses of the business.

Excise tax is due when marijuana is transferred from a RMB cultivation facility to a MIP, testing facility or RMB store. The tax is paid on the amount calculated on the weight or number of plants multiplied by the value set. The values set for the first 6 months of 2015 are:

\$2,007 per pound for bud/flower

\$364 per pound for trim

\$9 per plant per immature plant
