

The Adventures of H₂O Jo and Flo

Hey!
Keep It
Clean...

...Yeah-
'Cause
We're All
Downstream!

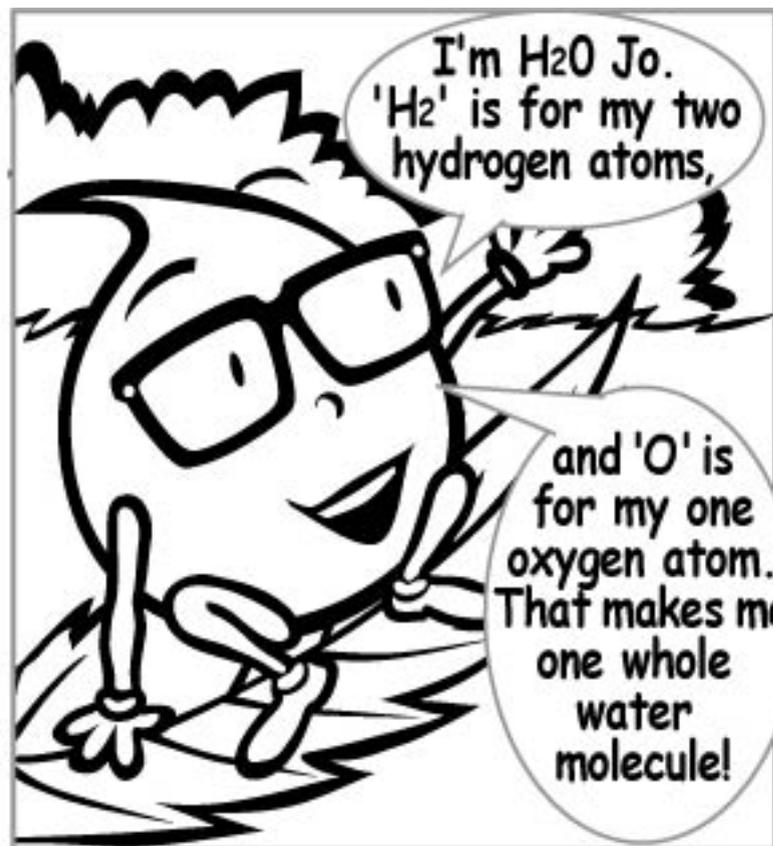

A Coloring and Activity Book

Volume 1

The Adventures of H₂O Jo and Flo

Sure,
give them
a try!

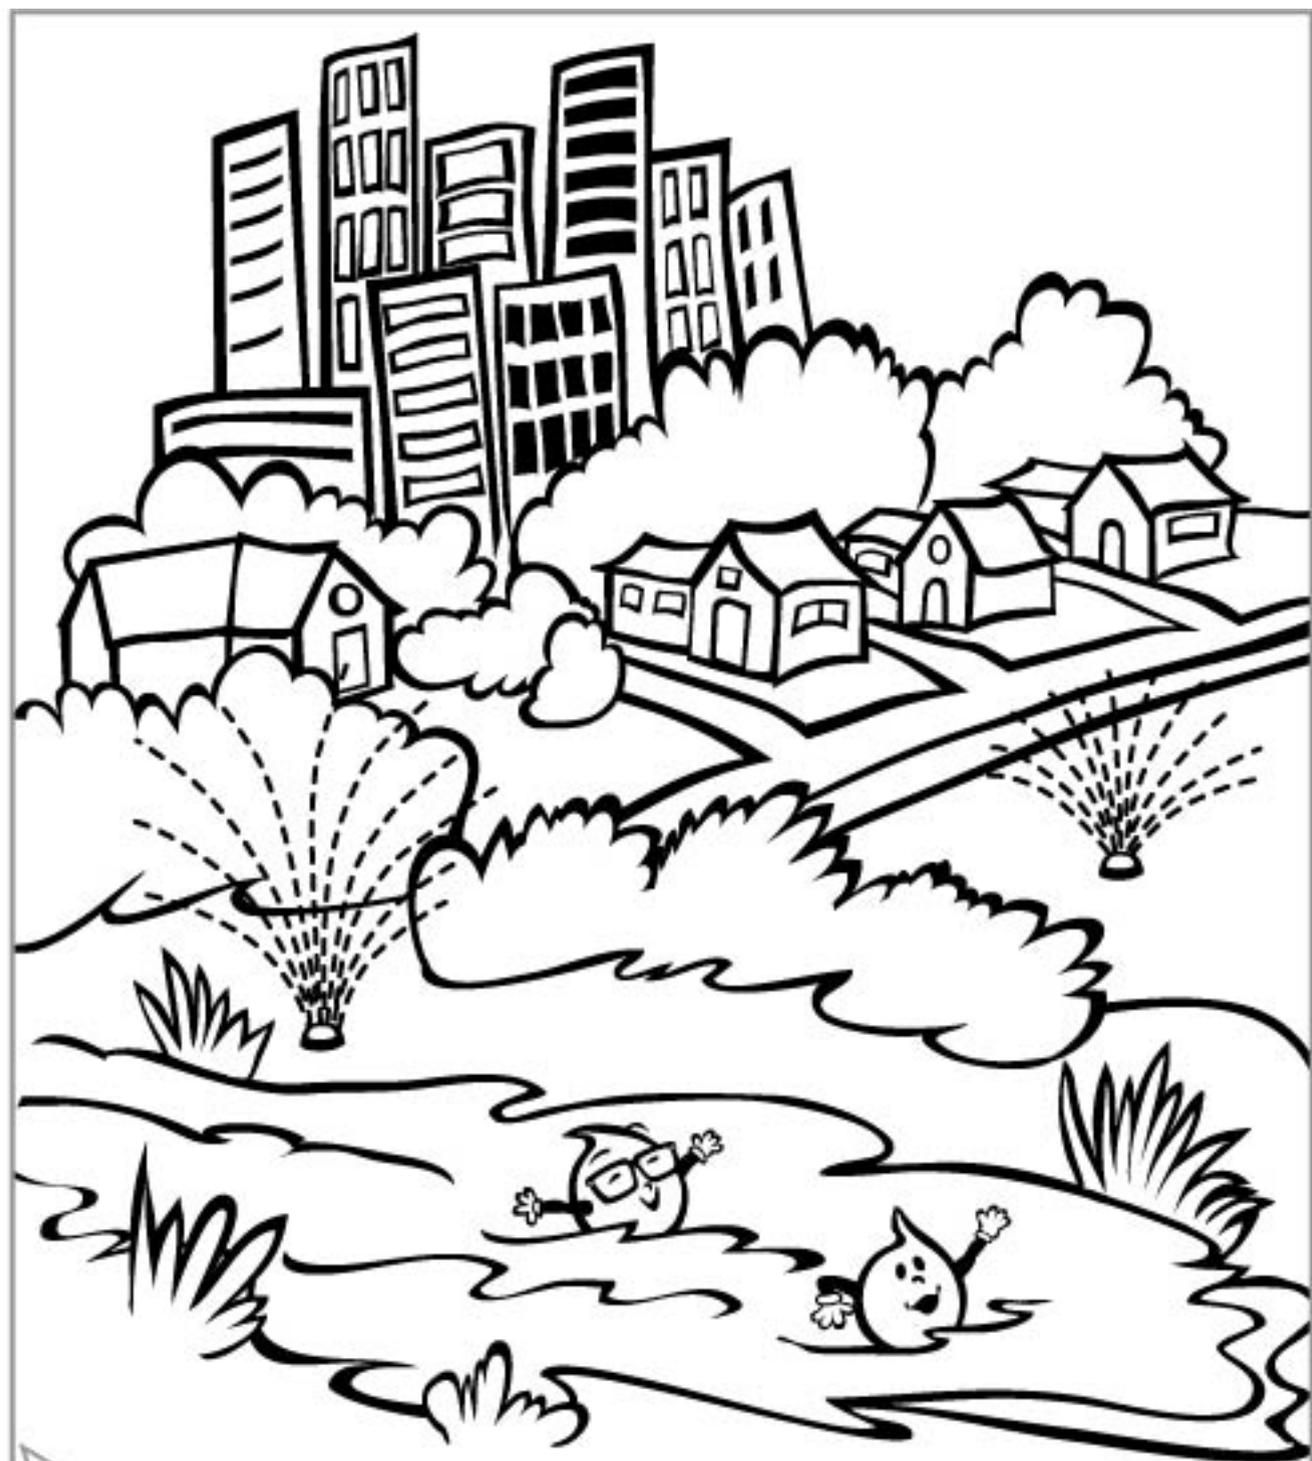

WOW,
I can see
EVERYTHING!

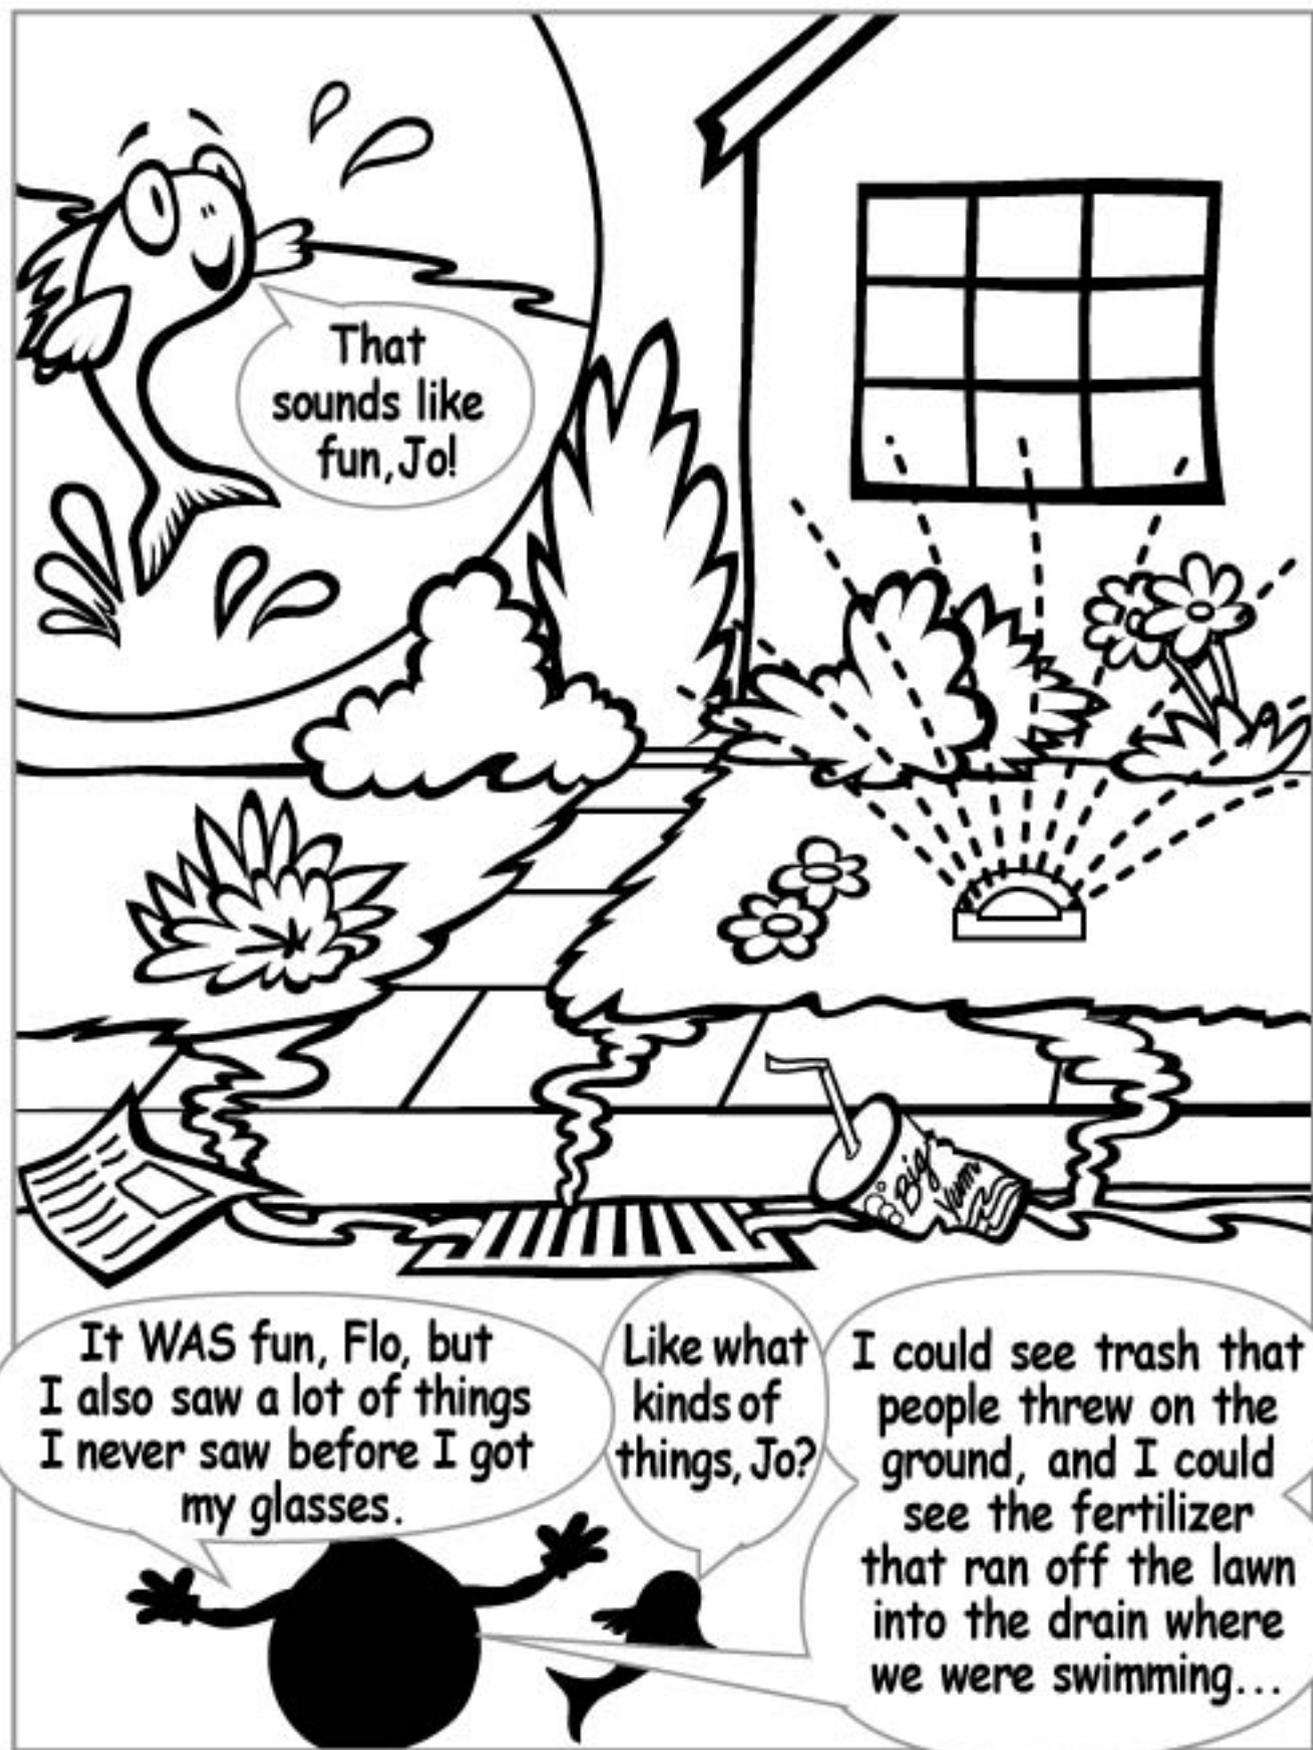

Yep,
me too!

I can even see things
that I didn't know were
there before---
in fact, I wish
everybody could
see them!

Whaddya
mean, Jo?

Well Flo, it all started this summer when I was playing with my cousin Splash in the park. Wow, what a lot of fun! Parks and lakes and **SPRINKLERS!** Sprinklers are soooo much fun!

That sounds like fun, Jo!

It WAS fun, Flo, but I also saw a lot of things I never saw before I got my glasses.

Like what kinds of things, Jo?

I could see trash that people threw on the ground, and I could see the fertilizer that ran off the lawn into the drain where we were swimming...

And I could see
how people who
owned pets...

...and worked on
their cars sometimes
forgot and left yucky
stuff behind.

I want to tell everyone
to be more careful...

...because all that stuff
gets in my home!

Let's go, Jo! We can be the team that tells everyone to keep it clean...

H₂O Jo & Flo's Advice For Keeping Water Clean

Did you know...

Litter on the ground can get into
our creeks and streams...

TIP:

Put litter in the trash can!

Pet waste contains bacteria that may end up in
our local waterways.

TIP:

Scoop the Poop!

Fertilizer from your lawn can run into our streams
and hurt people and animals.

TIP:

Use fertilizer sparingly!

One gallon of oil can contaminate
up to one million gallons of water.

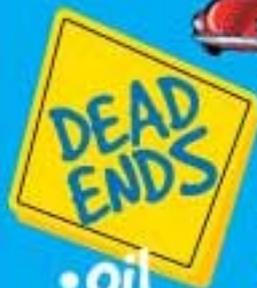

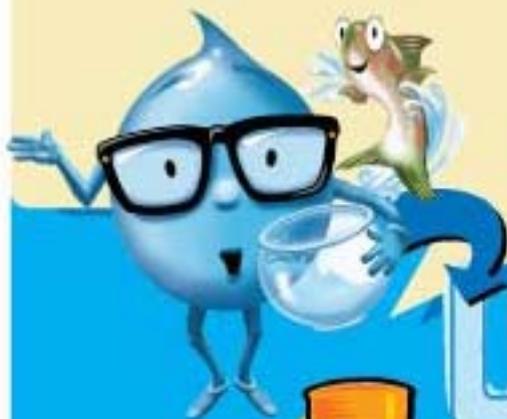

TIP:

Recycle used motor oil!

Keep it Clean
