

PEARL WEST PROJECTS

LOADING AND PARKING RESTRICTIONS

Due to the level of construction and associated demands for the Pearl West project, significant and temporary changes and restrictions will be required in the alley between Pearl and Walnut (Lawry Lane) and 9th to 11th. Signs will be posted and enforced allowing no stopping, standing, or loading in the alley during the hours of 6am to 6pm Monday – Friday. Temporary additional restrictions may be in place depending upon circumstances. To attempt to meet delivery needs, temporary loading zones will be created on Walnut, Pearl, and 9th to allow loading between the hours of 6am and 11am. Signs will be posted to define the loading areas. We anticipate these modifications to go into effect beginning May 12, 2014 and lasting for approximately 2 years. After 11am, the parking on these streets reverts to normal parking conditions.

We realize the demand and restrictions this places upon the businesses and the vendors; however, we believe that with planning and cooperation we can mitigate the issues.

KEY

- Temporary Loading Zone**
South side of Pearl Street from 9th Street to approximately mid-block, an opening, then east to 10th Street.
- Temporary Loading Zone**
East side of 9th Street for a section mid-block between Walnut Street and Pearl Street.
- Temporary Loading Zone**
North side of Walnut Street approximately 70' west of the pedestrian walkway and approximately 55' east of the walkway.
